

## **Advisors**

These are the new Kansas DeMolay Medical Release forms, read them carefully.

As you will notice there is a blank line that says activity at the beginning, and a line that says event in the middle. Both of these lines must be filled out with the name of the activity/event that the DeMolay will be participating in, ex: State Congress.

You will now need a new medical release for each activity. This is mostly for traveling purposes or sporting activities.

You will also find attached a medical history form. I strongly encourage that you have each parent fill out one of these forms and attach it to the medical release. It would also be wise to request a copy of their insurance card (front and back). This too, should be attached to the medical release.

## **State Congress**

Those individuals who participate in sporting events will need to provide a copy of their medical release to the Advisor in charge of that sporting event, so that a copy of the medical release will be on hand at the event should it be needed. These releases will be returned to your Chapter following the event.

It is a **MUST** that all DeMolay, Chapter Sweethearts, and Attendants have a medical release in your possession before attending Congress. It would also be wise to have all Advisors fill out a medical release, so that we know of any medical problems.

Please make extra copies of forms as needed.
